

# Digital SketchBook

Nick Evans

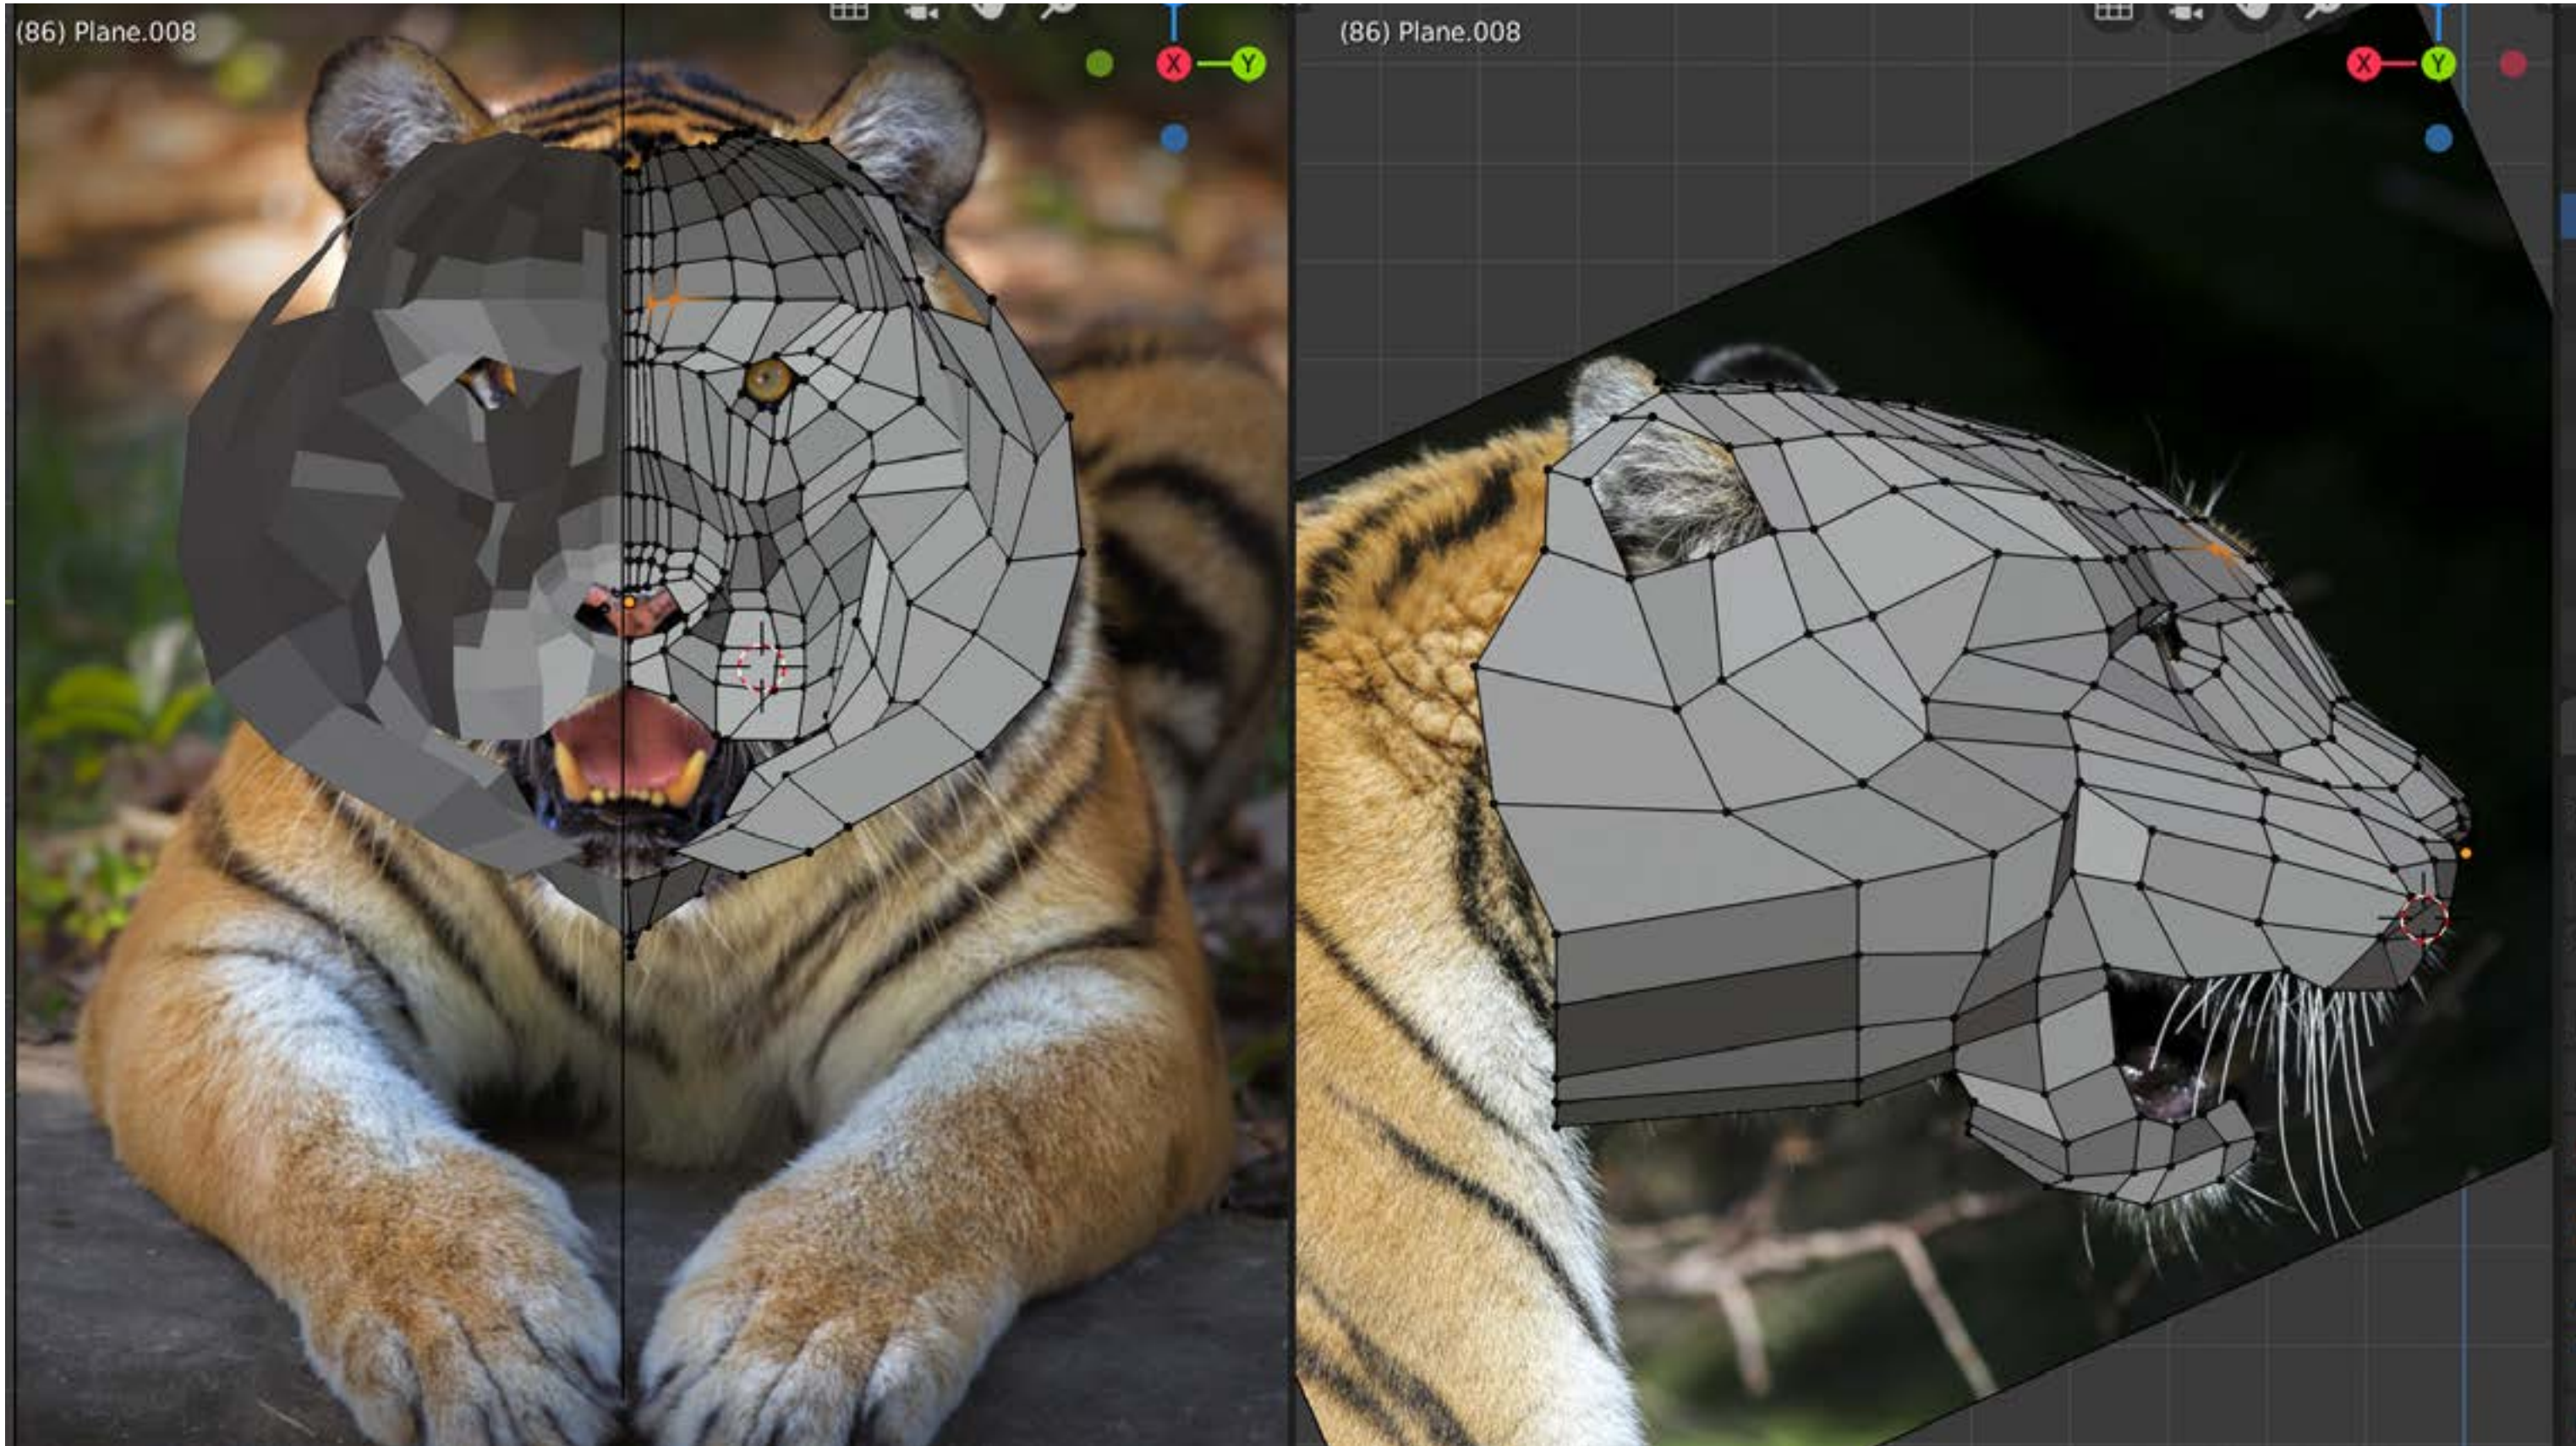

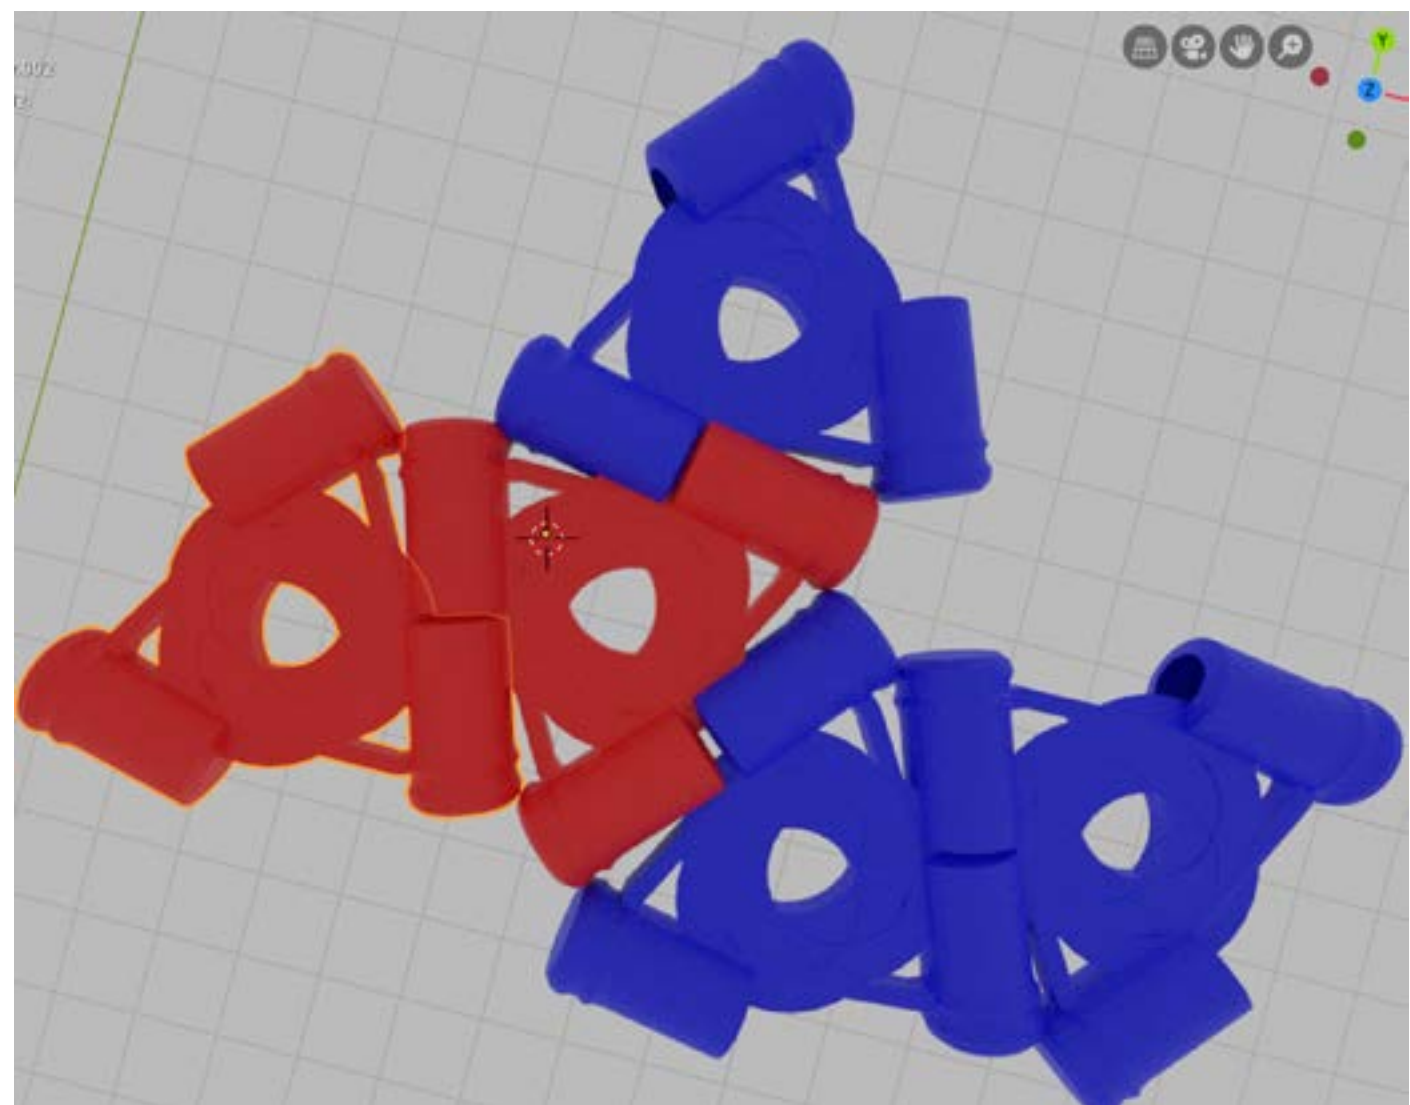

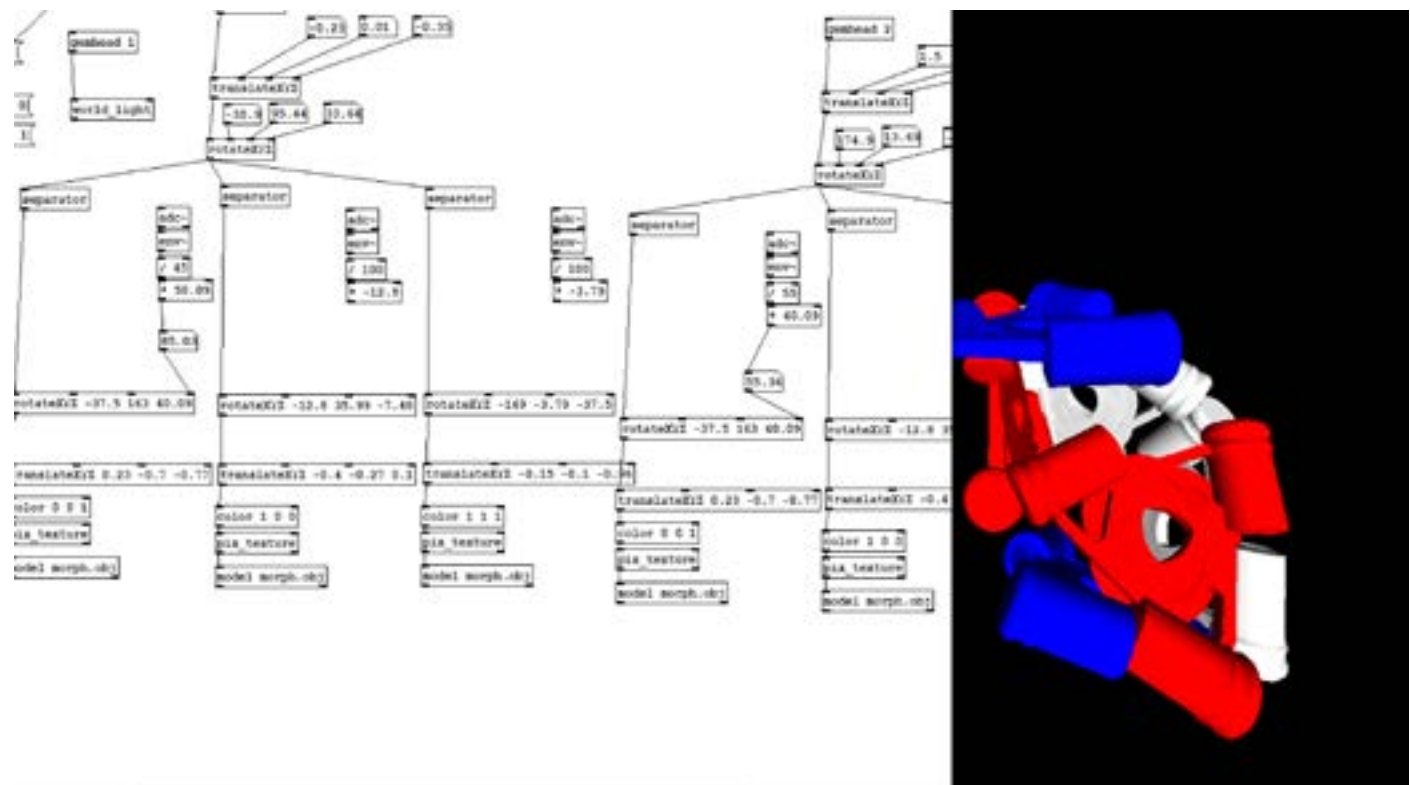

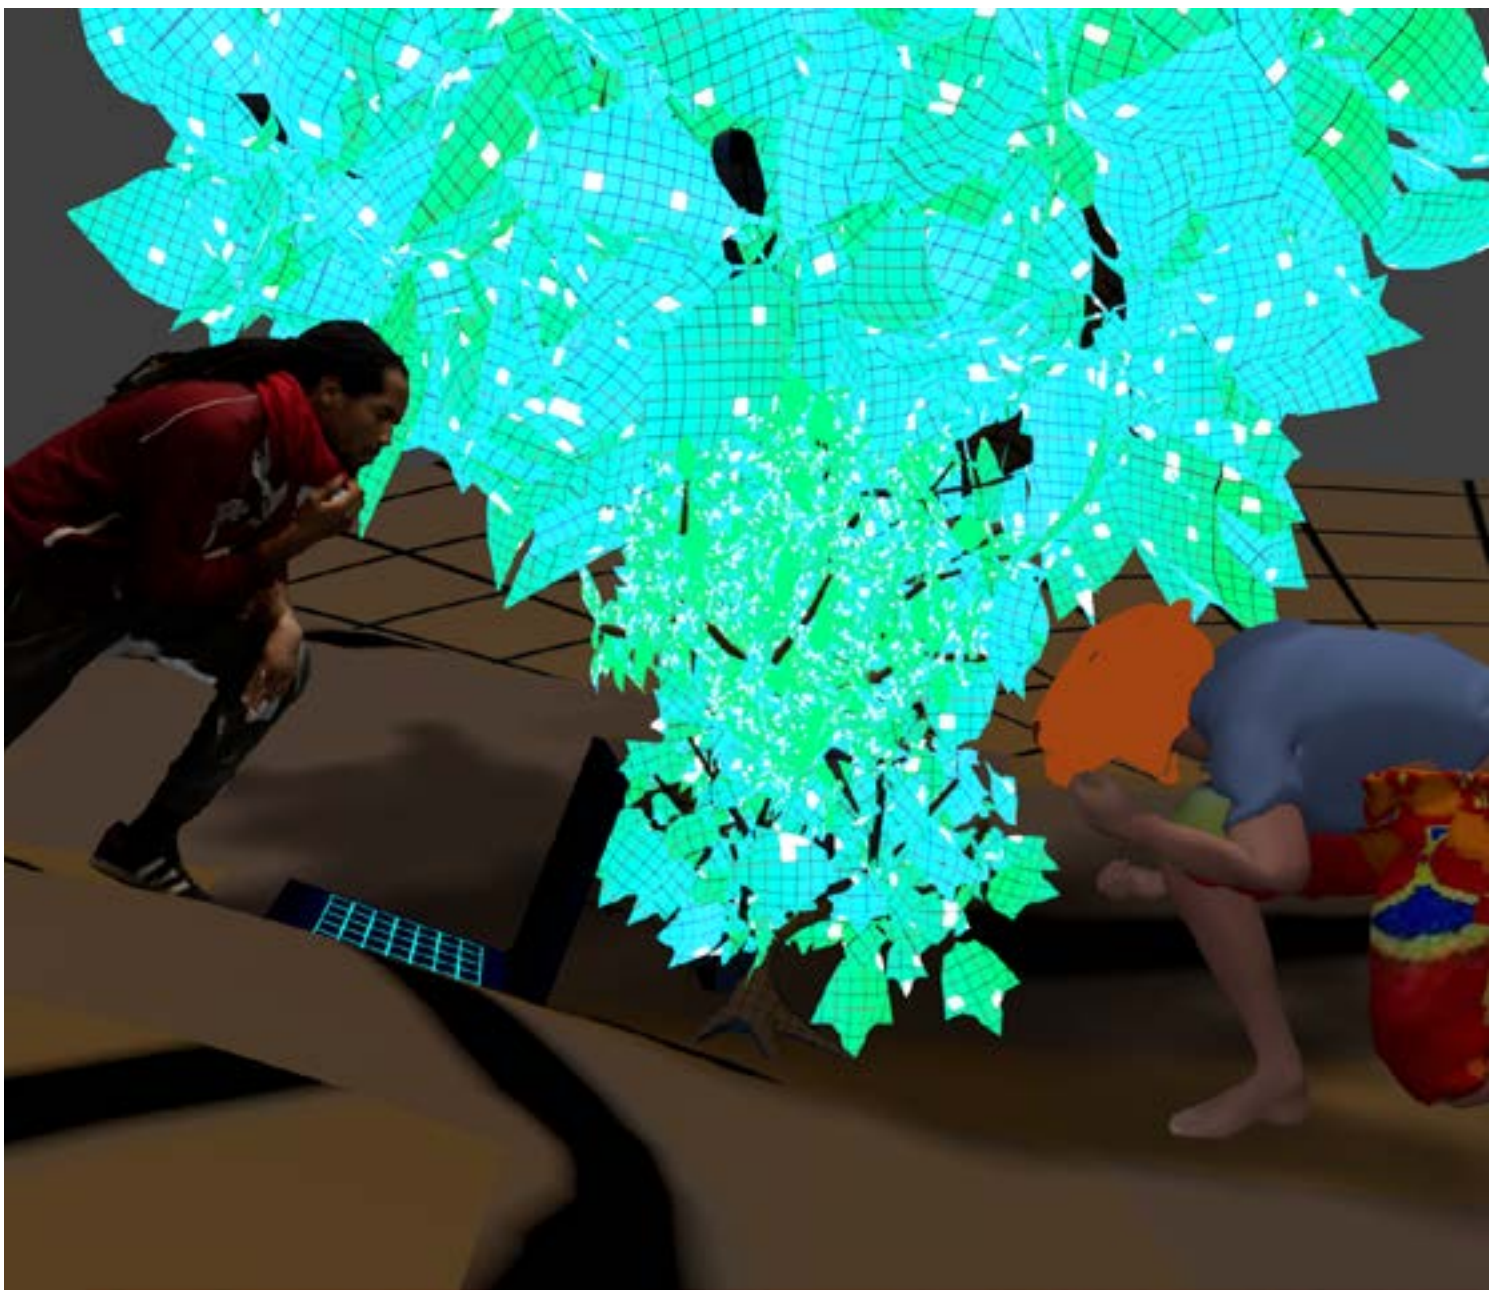

My digital art sketchbook of the various ideas and experiments I've had in the realm of art media and technology. Prior to university I had a very traditional background so these last years of diving in to computer graphics and softwares have been very fun. As an art media and technology student I felt like a scientist experimenting with processing, animation, code, 3d and more.

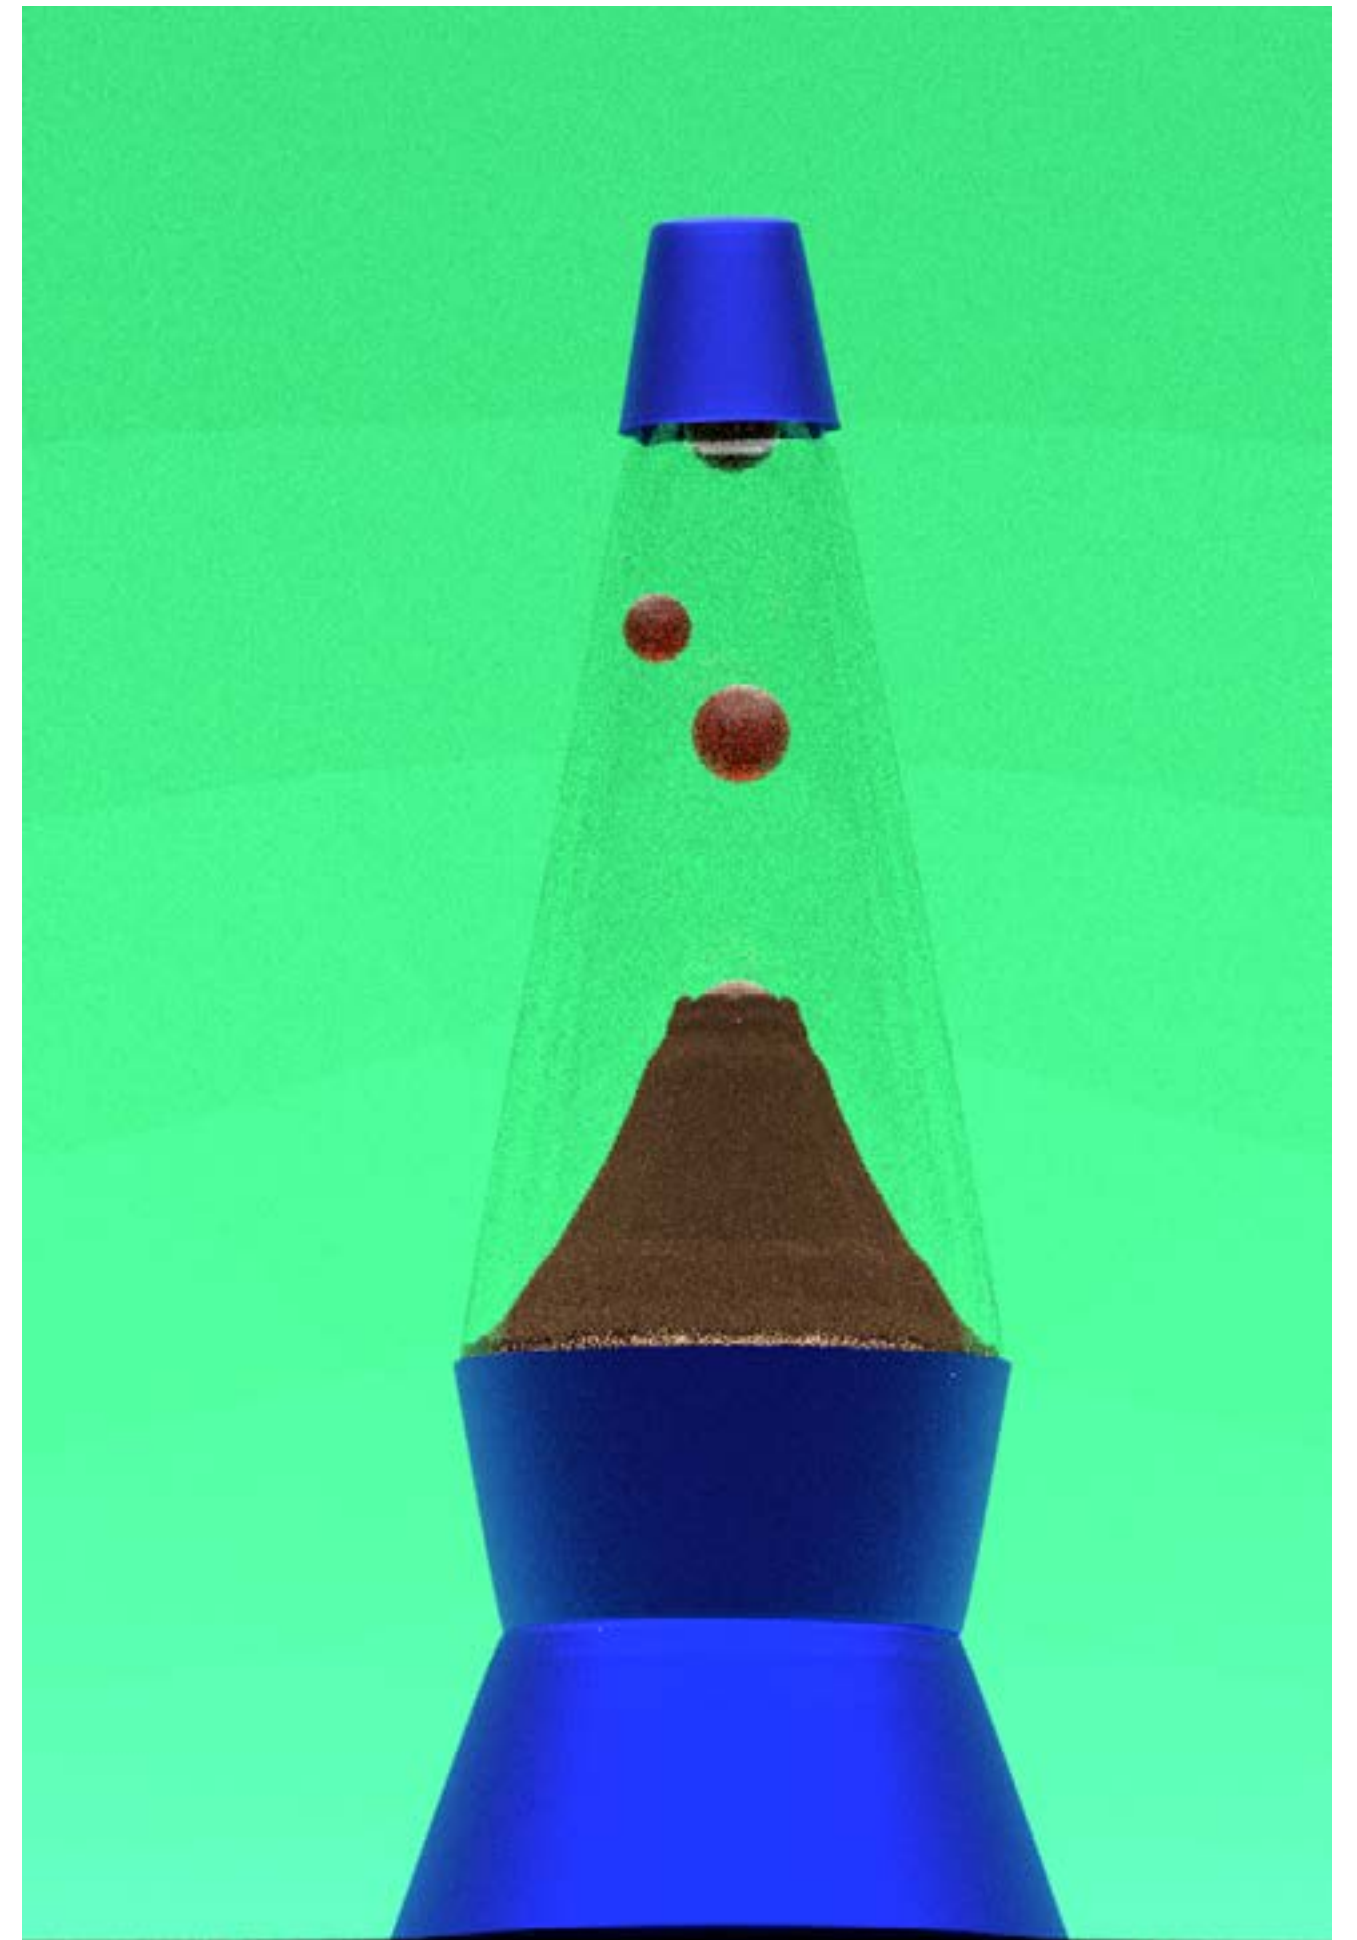

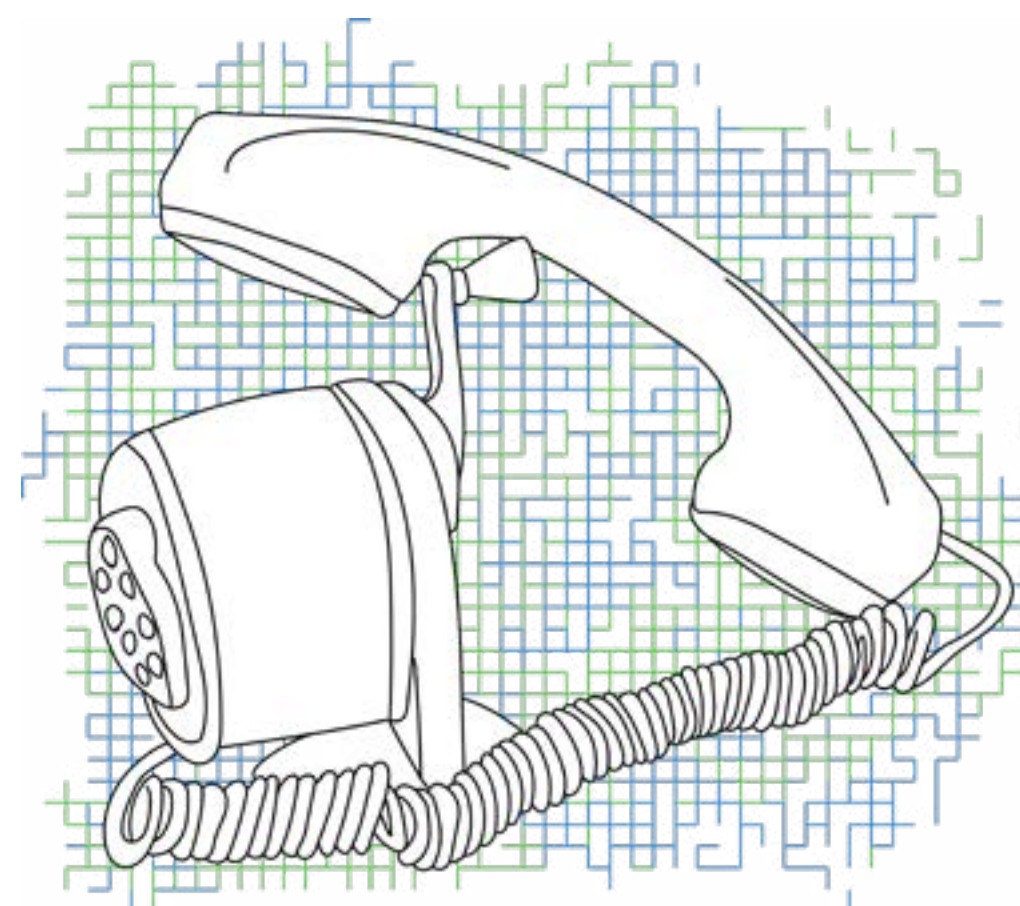

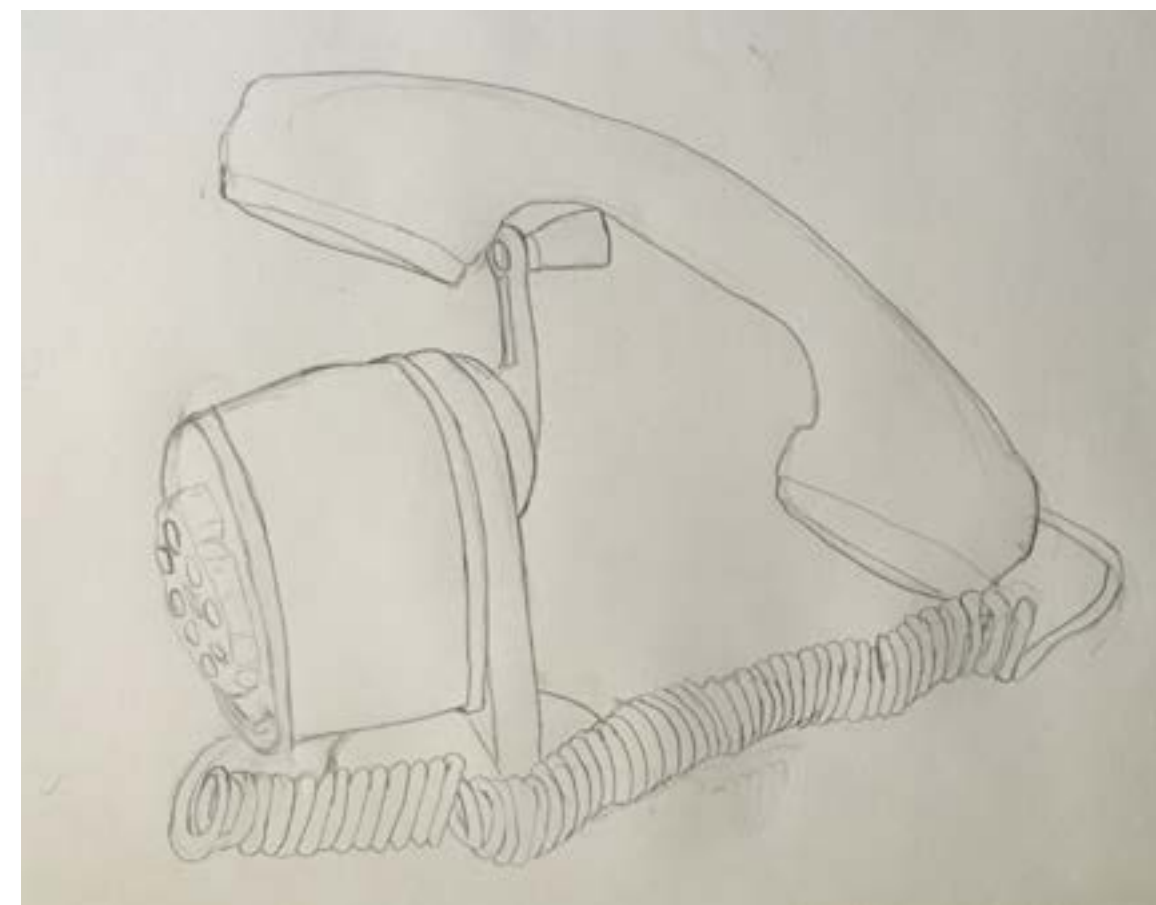

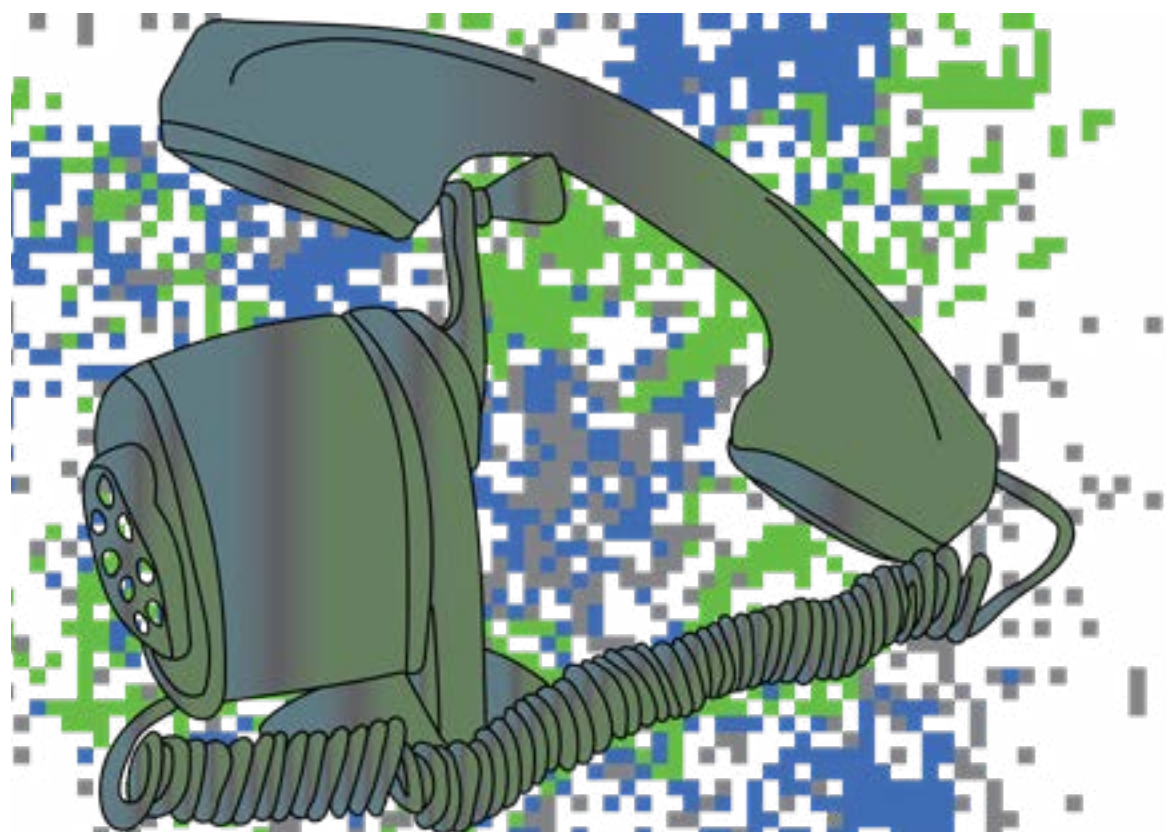

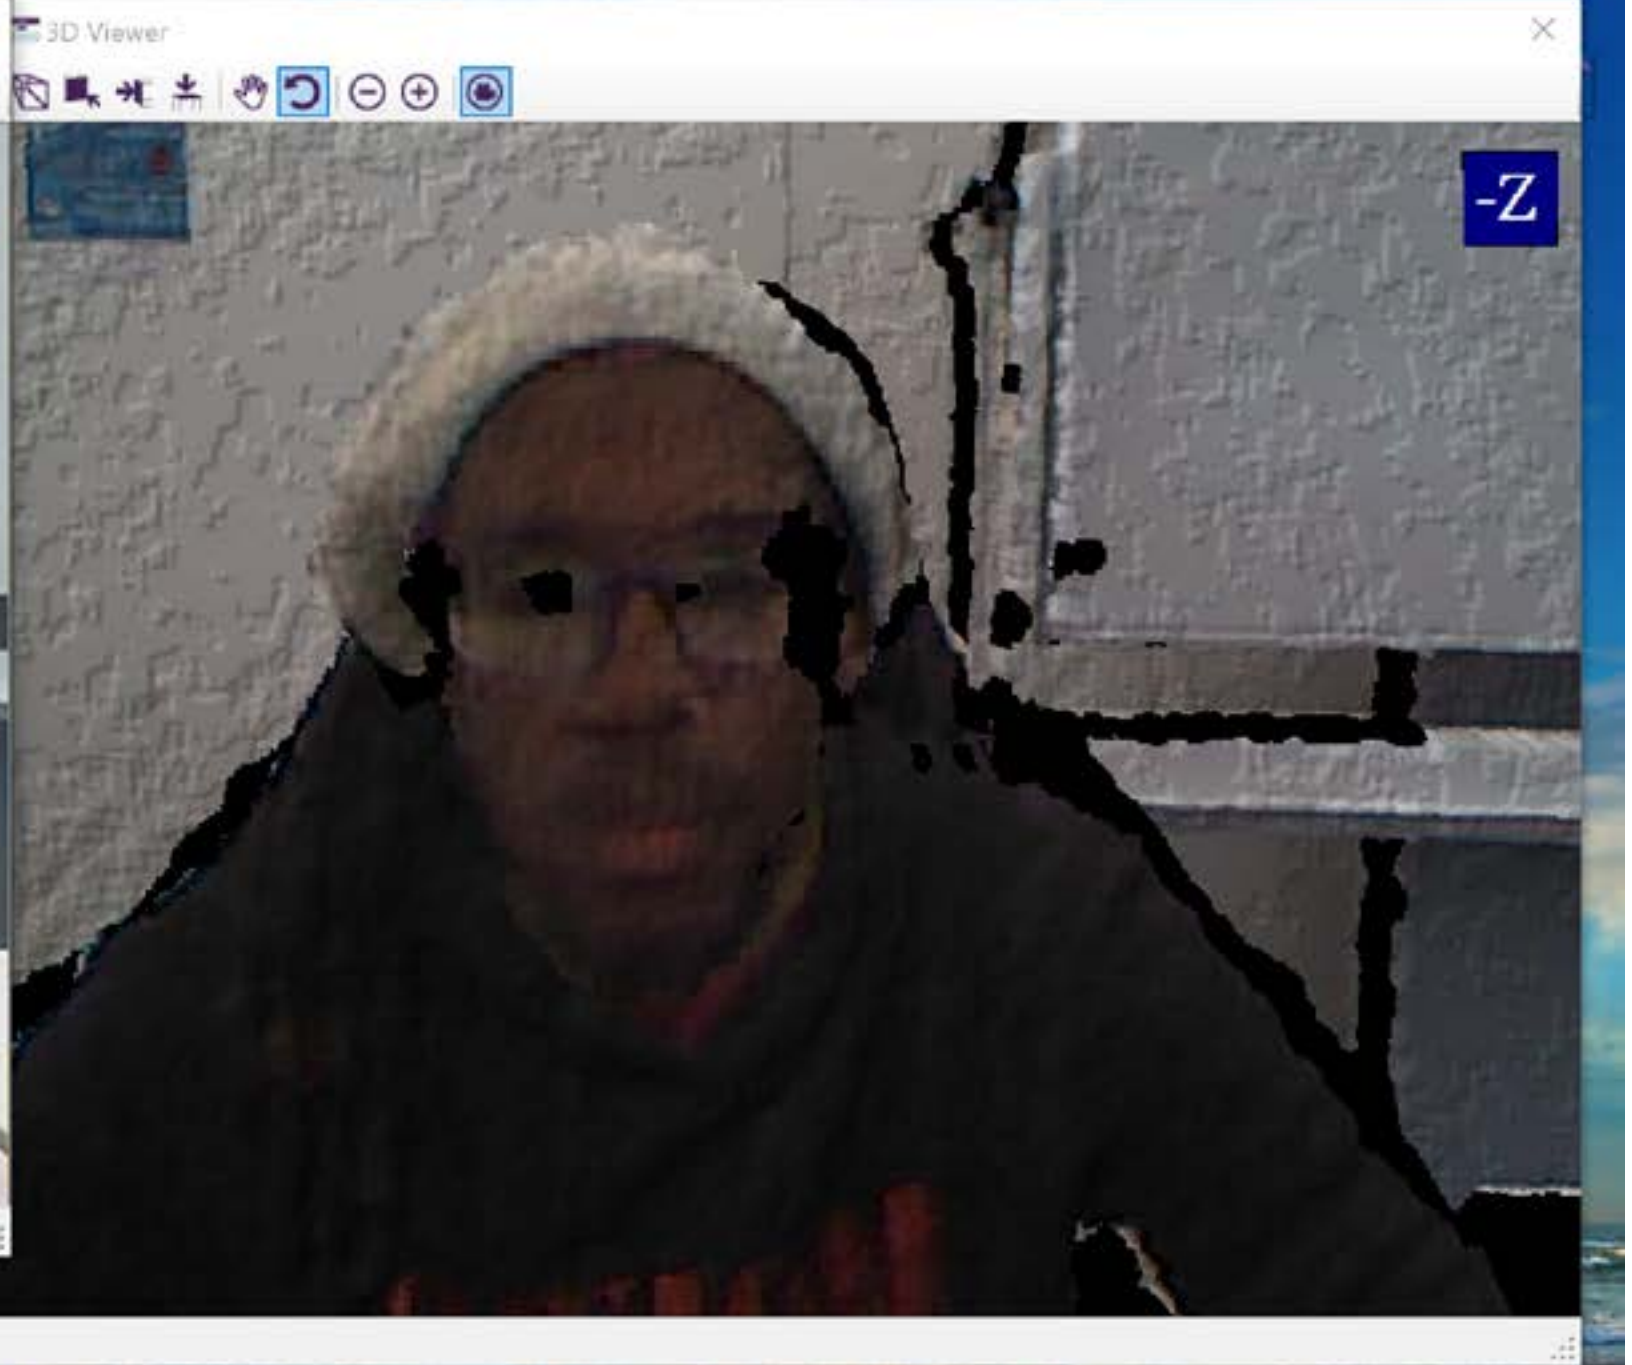

# Paris Safety + Harassment Workshop

Have you been a target for street harassment in Paris?  
-This workshop is a safe space to share.

Don't know what to do?

- Here we can discuss resources for what to do  
in varying cases of street harassment and assault.

Ex-patriate feeling isolated and/or scared in the city?

-You're not alone.

Native Parisian experiencing this,  
but with some tips to share?

-You are welcome here too!

The Paris Safety + Harassment workshop is meant to be a space for ex-patriates and native Parisians alike to come and share resources, support, and stories between each other.

Come and be a part of the community and learn.
